SEND IN YOUR ORDERS!

Address, postpaid,
RUFUS KING, & CO.,
Sentinel Office, Milwaukee

Saukville, Sept. 20, 1852.

Only Two Weeks to Election!

WAKE OF WISCONSIN! Friends of American Labor, and Western Improvements! Supporters of a policy which shall protect American citizens in the enjoyment of the rights won for them by long and bitter struggles against foreign domination! Do you realize that barely two weeks is left in which to work? We entreat each one of you to look about your immediate neighborhood, and see if all has been done that can be done to bring to the people an appreciation of the important issues involved in the contest. Much has been done, we are well aware, by distributing documents with an unsparing hand; but, in thousands of cases, a few words of quiet conversation by the fireside, are worth more than a host of documents. Let those who have heretofore been led by the falsehoods of demagogues, to vote against your, and their own, dearest interests, see that you are in earnest. Tell them the plain, sober truth, relative to the position of the self-styled democratic party! Give them the figures!—There never was a time when the people were so ready to read and hear.

Look to your local tickets! Messrs. DURAND, ABBOT, and SHAFTER, the whig candidates in the 1st, 2d and 3d Congressional districts, are good and true men, and deserve your utmost efforts to elect them. The contest may be close in each district, but we know that they *can* be elected, if those who agree with them in sentiment will only work zealously for them.

The Legislative and County nominations are excellent, so far as we have heard. We hope for a Whig Legislature in both branches. Shall we not have such a result?

Then as to the General Ticket. What more can we say as to the eminent abilities, sterling virtues, steadfast patriotism, of our gallant leader, WINFIELD SCOTT! The record of his life, men of Wisconsin! has been spread before you. It stands on the pages of his country's history, recorded in letters of living light. He has never lost a battle when contending for your interests. WILL YOU NOT STRIKE ONE GOOD BLOW FOR HIM ON THE 2d of NOVEMBER?

Recollect, that the names of the Electors, and Legislative and County candidates must be on every ballot. Let that ballot be a clean one, having on it good and true men. VOTE IT, AND ELECT IT!

BALLOTS.

Have the County and Town Committees seen to the procuring of ballots? Get them printed under careful supervision, at the nearest possible place. Get enough of them, and be sure that they are at the polls.

If any are sent to us to be printed, or sent elsewhere, be sure that the *names* of all the candidates *are fairly and plainly written*, so that there may be no mistake when the count comes to be made. Send in the orders as early as possible.

The Banking Law.

Friends of safe Banking system for Wisconsin! Will you remember that the vote on this question is by *separate ballot*—and that the ballots are directed to read "*For the Banking Law*" or "*Against the Banking Law.*" Will you see that these items are supplied with ballots, and will you urge upon them the necessity of laboring earnestly for the adoption of the Bank Law, by the People. It contains within its sections the seeds of untold good to our State.

Vote "FOR THE BANKING LAW."

FROM OUR N. Y. CORRESPONDENT.

NEW YORK, Wednesday, Oct. 13th.

The great event of the last few days with us was the Address, made by SAMUL B. RUGGLES last Thursday, at Constitution Hall, in defence of the right and duty of the National Government to improve the navigable waters of the nation. It was fully delivered at *Constitution* Hall, for a finer exposition of one of the great objects which led to the adoption of the Federal Constitution—the great bond of our common power and common safety—has nowhere, within my remembrance, been made. You will, of course, have read, and I hope have republished, or will republish it, in the *Sentinel*—for it concerns every man living around the lakes, and the great natural highways which Providence has spread over our continent, in the shape of the Missouri, the Mississippi, the Ohio, the St. Lawrence, and their tributaries—to know how sagaciously the founders of this Republic planned to make the cure of these waters one of the "rights of the Union," and consequently one the supply, and to choose delegates to represent the of its duties, and to be informed of the mischiefs which the spurious democracy has brought upon the country already, by repudiating this duty, and the greater mischiefs, individual and national, political and pecuniary, which a perseverance in that platform of negations adopted at Baltimore by the supporters of Pierce and King, must bring upon the nation. Would that every voter in the great valley, and inhabiting the lake shores could have the opportunity of reading this address, or hearing it read, before he casts his vote at the Presidential election next month! Would that all men, of every creed and of every decline, and of every political party, could be put in possession of this great argument, and be thus enabled to realize the unspeakable importance to the whole Union—especially to the great and growing West, —of placing the government of these United States in hands that will be faithful to the trust, and that will not co-operate with Senator Douglas, and his confederates, in denationalizing waters, which the hand of God made for a nation, and which our great forefathers accepted, and thought they had for ever secured as national, by that clause of the Ordinance of 1787 which declares that these waters should be forever free to all, exempt from all toll, taxation, and impost whatever.

With Winfield Scott as our President, and a Congress that shall co-operate with him in the great duty of preserving this *right of the Union*, together with all its other rights, we shall see, or those who come after us will see, the greatest political spectacle ever offered to the admiration of man—of a *Continent* under the same free institutions, and subject to the same laws; bound together by a chain stronger than adamant, of navigable rivers, of railroads and canals—without obstruction of custom-houses or rival tariffs—and free alike to the dwellers on the Pacific, or the Gulf of St. Lawrence—a continent really homogeneous in interests as in name—the most grand and beneficent creation of man for the liberty and welfare of his race.

It is impossible, in my judgment, to overestimate the value of such a paper as this of Mr. RUGGLES. He has indeed been forced to take somewhat the shape of party address, for the obvious reason that the Whig party favors and supports the views thus ably put forth, and the other party denies them, and would limit all government to a negative, instead of presenting and regarding it as an active, beneficent agency. But I cannot, I think, be mistaken in believing that the fervor and power of this address will cause it to be read, and felt, and adopted, far beyond the lines of party; and that men of thought and of patriotism every where, although bound politically to the so-called democracy—will accept this argument as a call to revise their opinions, and to co-operate with all men, of whatever party, who are striving to advance such great national objects. Read! Read! and circulate; and the good seed cannot fail to spring up in an abundant harvest of precious grain.

Our accounts from Europe by the *America* at Halifax are to the 2d inst. Commercially they are good, as showing an abundance in cotton, and firm and ready markets, tho' at no advance of price, for flour and grain. The harvest was well-nigh over, and the wheat crop is pronounced not more than an average one, alike in quantity and quality. The Empire is fast overshadowing the so-called French Republic, and a new Napoleon is to set his iron heel, in the name of Liberty first, and next of Social Order, upon the necks of the French people. It is their own choice, and it belongs not to us, or other people, to dispute the decision, however little we may admire or respect it.

We have to-day the first accounts from the election for local officers and members of Congress in Pennsylvania and Ohio. They are vague as yet, but not other, so far as I can learn, than was expected. No well informed Whig looked for any considerable change in the party import of those states at this state election, while it is equally sure that no well informed Whig that I meet with seems to doubt that next month, when the great name of WINFIELD SCOTT is to head the column, the Whig triumph in those states, as in this Empire state, will be complete.

BETTER STILL FROM OHIO!

The Cleveland *Herald* of the 16th says:

At noon to-day fifty-five counties had been reported at Columbus, showing a Whig gain of *more than* 10,000 on Wood's majority in 1851. Thirty three counties yet to come in.

The Whig Congressmen in the Knox district is elected, where it was supposed a loco was returned. The district gave last year a loco majority of 1130.

Here are the returns in the 18th district for 1848, 1851, and 1852. They show a handsome Whig gain:

1848—Cass 4096, Taylor 3,425 Van Buren 4,371
1851—Loco 4208, Whig 3119, Free Soil 3,649
1852—Wilson (D) 3,711, Case (w) 4,041, Wade (f s.) 5,253.

The *Herald* says:

"Old Ashtabula has done well, giving Newton 1,350 votes, which is a gain of 500 over the vote of last year, and of seven hundred over that of 1848. In 1848 Taylor beat Cass only 246 votes, and now Newton beats Woods 875, a gain on the Locofocos of 629. Scott will beat Pierce in Ashtabula 1200.

Calloway, whig, is reported beaten by Olds by 14 majority. In one town the Judges threw out 19 votes for Galloway, which were in the Assessors' box, and which would have given him 5 majority in the district. He will contest the election.

After looking through the returns, the *Herald* says:—

The Reserve will give five thousand more votes for SCOTT than it gave for HAYNES, and Pierce will get 2,000 less than did Caldwell. Here is 7,000 Whig gain; and in the Wheat belt of Ohio, Scott will gain on Pierce over the State at least 5,000. The Centre will increase its Whig vote over four thousand; the Northwest two thousand, and Hamilton county and the South will gain 3,700; and we claim Ohio for Scott by 10,000.

COUNTY CONVENTION.

The attention of our friends in the several towns of this County is invited to the call, in our columns, for the County and Senatorial Conventions to be held in this city on Wednesday next, October 27th, to nominate a County Ticket and a candidate for Senator in the Fifth Senate District. It is hoped that the friends of SCOTT and GRAHAM will improve the occasion of those Town and Ward Meetings on Saturday next to perfect their local organizations, and make all necessary preparation for the great contest of the Second of November.

INFORMATION WANTED.—Of Mary McGreevy, who came to this country from Belfast in July last. Her brother, who left her in New York city, is very anxious to ascertain where she may now be found. Letters addressed to him, Hugh McGreevy, at Milwaukee, will meet with prompt attention. Eastern papers please notice.

CUBA.—Two weeks later intelligence from Valparaiso represent Christian affairs in a very promising state.

The Government had sent out $200,000 to London, to purchase a war steamer.

Nominations for the Legislature.

Below we give as complete a table as we have been able to compile of the nominations for Senate and Assembly:—

JAPAN EXPEDITION.—The *Herald* states that in addition to the vessels already attached to Commodore PERRY's squadron, orders have been given to prepare, with all possible despatch, the line-of-battle ship *Vermont*, carrying 100 heavy guns, the razee *Macedonian*, mounting 30 heavy eight and ten inch shell guns, and the sloop of war *Falmouth*, 20 guns. The squadron will thus consist of the

Vermont, carrying	100	guns.
Susquehanna (steamer)	9	"
Mississippi, do	10	"
Princeton, do	10	"
Macedonian, razee.	30	"
Plymouth,	20	"
Falmouth,	20	"
Saratoga,	"	"
Giving a total force of 219 guns.		

But the number of guns gives no adequate idea of the strength of the expedition, unless the calibre is also taken into consideration. Thus, the *Susquehanna* has nine ten inch shell guns; the *Mississippi* carries eight eight inch shell guns, and two ten inch shell guns; the *Princeton*, ten eight inch guns: the *Macedonian*, twenty-eight eight inch shell guns, and two ten inch shell guns.

An 8 inch shell, empty, weighs	53	pounds.
An 8 inch solid shot	64	"
An 11 inch shell, empty	128½	"
A 10 inch shell	100	"
A 10 inch solid shot	120	"

These vessels will constitute one of the most effective squadrons ever put afloat by our government.

LEGISLATIVE NOMINATIONS.—WILLIAM A. BUSH, editor of the Berlin *Mercury* is the whig candidate for State Senator in the 23d district. The selection is a fortunate one in every respect, and we look for his election with the utmost confidence.

In the Platteville district of Grant Co, GEORGE SCHNEE and TITUS HAYES are independent candidates for Assembly.

GEORGE FARNAM, whig, for Assembly in the La Crosse and Chippewa district.

In Columbia Co., JOSEPH KERR is the whig candidate for Senator, and JOHN A. JOHNSON for Assembly in the Fort Winnebago district.

In the Madison, Dane Co. district, ALEX. L. COLLINS, is the whig candidate for Assembly. Mr. Collins has been doing yeoman's service for the general cause in various sections of the state during the campaign, and his neighbors now mean to have him serve them at home. His Loco opponent is Mr. M. ROCHE.

In Dodge Co, the Locos have nominated for Assembly E.B. BOWEN for the Theresa district, PATRICK KELLY for the Portland district, JOHN M. DAVIS for the Beaver Dam district, and WM. M. DENNIS for the Emmet district.

"Ethiopsomony" at Oshkosh.

We have mislaid the Oshkosh Courier, containing the account of enthusiastic democratic meeting at that place which we had intended to publish.

So laments the *Morning News*. Will our friend permit us to supply its loss by the following article from the Oshkosh *Democrat*, the other Pierce and King paper at the same place:

Last Saturday was the day appointed for the Grand Rally of the Democracy at this place. We were out of town then, and are, consequently, unable to report at length the proceedings of the day. Speeches were made by H. C. Hobart, Gen. B. Smith, Isaac Woodle, E. S. Bragg, and W. H. Ebbets. Our neighbors of the Courier give a glowing account of the meeting; but from all we can learn of it, the display of numbers and enthusiasm is much greater in their columns than it was at the "Grand Rally."

☞ The *Sentinel* says it has "the best reasons for believing" that we knew we were circulating a false rumor, when we said that it was generally understood through the District that Mr. Tweedy and the Whig members of the "Jenny Lind Club," were going to support Mr. Wells. We should like to hear some of the *Sentinel's* "best reasons for believing" as guilty of giving publicity to a rumor we knew to be notoriously false.—*Free Democrat.*

Our "reasons" are briefly these—that before giving publicity to this "rumor," the *Free Democrat* had the strongest assurances that it was wholly and gratuitously *false*. The Whigs of this District, as we hope and trust, will vote for their own man, Mr. DURAND, and nobody else.—We are still left to conjecture what possible motive the *Free Democrat* could have had for making this unfounded and uncalled-for charge.

Ohio Election.

HAMILTON COUNTY.—The Cincinnati *Gazette* says that this strong Locofoco county which last year gave a majority of 3773, this year has elected a Whig Sheriff by 600, a Whig Commissioner by 1500, a Whig member of Congress by 900, a Representative by 1000, and Judge of Common Pleas.

On the State ticket, the vote for Caldwell, loco candidate for Judge is only so far as heard from 1498, and the official returns will not increase it to over 1900, making a clear gain in a single county of 1800 votes.

AN OMISSION.—The delegation that went out on Saturday to meet the Whigs of Wauwatosa, had not on Monday sufficiently recovered from their feasting on the good things provided there, to inform us of that portion of the entertainment. Nevertheless, we have learned from one of them that the supper spread before them by BRUEN at the village, was one of the very best that ever a party of men sat down to, the table being abundantly supplied with all the delicacies in the form of fish, flesh, fowl, and other matters, which unbounded hospitality could provide, or good taste prepare.

Milwaukee winning by 71.

The deciding match between the two Clubs is to be played next Spring, time and place to be hereafter determined upon. Our Chicago visitors leave for home this morning; carrying away with them, we trust, as favorable an impression as they leave behind.

THE "MESONNEE?"—We expect to have an opportunity shortly to make particular note of the performance of this production of Milwaukee handiwork. The locomotive is already on the track, and the tender was at the edge of the basin yesterday afternoon, waiting a scow to transport it across the river.

SPECTACLES FOUND.—A case containing a pair of silver bowed spectacles was found night before last near the Plymouth Church, by Mr. W. E. Beetle, who lives near the corner of Division and Marshall-sts. The owner can have them by calling for them.

☞ Capt. MCKINNON, R. N., a frequent visitor to Wisconsin, and author of a clever and readable book about the United States, is now in our city and has lodgings at the U. S. Hotel. We noticed him on the Cricket ground yesterday, heartily enjoying this old English game.

SINCE THE ELECTION—A SIGH!—The Cincinnati *Citizen*, one of the rankest Loco Foco sheets in Ohio, hauled down its flag two or three days after the election, and turned neutral. The Sandusky *Register* says:

The late election in Hamilton has proved too proclaim for its further prosperity, and hence its disgust with politics. We only hope the Editor may not be haunted by the ghost of his oft-repeated calumnies against Gen. Scott. The *Citizen* should do penance through many a year, for its late character.

ATKINS' AUTOMATON REAPER.—We find among the reports of committees at the Chicago Industrial Exhibition, the following with reference to the remarkable Self Raking Reaper, which excited so much attention at our State Fair:

Atkin's Automaton Raker, entered by John S. Wright, of Chicago, is truly a wonderful machine, and commends itself highly to public notice; but as it was withdrawn before the day of trial, we are not well prepared to speak of its merits. It is due the inventor of this beautiful piece of mechanism, to state that he is a cripple, and was confined to his bed during the whole period occupied in the construction of the machine. In pain and sickness he conceived the design of a Self Reaping Reaper, and by mathematical science calculated the exact movements of every portion of the machine, before its construction was commenced.

FIRE AT OSHKOSH.—On Friday morning last, at Oshkosh, a large two-story barn—the upper part of which was finished off for a ball-room—and two other unoccupied buildings, were destroyed by fire. The fire was the work of an incendiary. The value of the property destroyed was not far from $1,500.

MARINE ITEMS.—The steamer *Superior* run into the Canadian Schooner *Lowland Lass* off Dunkirk on Thursday last and sunk her.

The Schr. *Mansfield* was also run into by a Steamer, and badly damaged. She however made the port of Buffalo leaking badly.

THE CALORIC SHIP.—We find the following remarks on this new enterprise in the Portland *Advertiser*:

"Under what singular circumstances this vessel is to begin her career! She is the first, and may be the last, of her race. A mighty combat is to settle her destiny. And consider for a moment the position of steam power, her rival.—It is now in the full glory of perfection—having been gradually ripened by the successive efforts of the most inventive minds, by the exigencies of the most diverse employments, and by all the incitements of this enthusiastic age. It began its career humbly in mines, and thence arose by slow degrees of improvement, in mills and ferries, and river boats, until the ocean steamers stand as the highest expression of its mature beauty, utility and power. Now, against all these and the principle which animates them.—"The Ericsson" enters herself as a competitor—as utterly untried in operation as she is presumptive in spirit. But such has been the confidence reposed by capital in science, that this large ship has been built and finished to the minutest screw and finest gilding, and will be manned and loaded—when it is not *certain* that she will be able to work her way out of New York harbor.—Never, since Columbus steered his little barks out of Palos in search of a new world, has a vessel commenced so sublime a voyage! But speculation is useless, for it will soon be superseded by fact.

The advantages claimed for the caloric engine and their apparent validity, are thus considered by a recent visitor to the ship:

"1. Economy of space. A moment's inspection justifies and admits this claim.

2. Safety from explosion and accident. This, too, is undeniable.

3. Ventilation of the entire ship. This, also, seems indisputable.

4. Economy in first cost. The engine is about equal in cost to a steam-engine, and hence saves the cost of boilers, no use for them.

5. Economy in running, requiring but one-fifth the men. This remains to be proved.

6. Lastly and chiefly—economy in fuel: a saving of four-fifths, at least, the fuel, ordinarily consumed by steam-engines of equal power.—This remains to be proved."

RAILROAD MOVEMENT.—Jesper Vleit, locating Engineer of the La Crosse and Milwaukee Railroad, reached this city last Friday, from Milwaukee, by way of Menominee Falls, Hartford, Iron Ridge, Horicon, Beaver Dam and Pardeville.—Mr. Vliet says this is a very feasible route and passes through a rich and productive country.—He returns via. Fox Lake, Beaver Dam, Juneau, Hustisford and Hartford.—*Portage City Republic.*

WISCONSIN RIVER.—A gentleman who has returned from Wisconsin river, with about 2,000 bushels of wheat, in four flat boats, informs us, that the water continues very low, though there had been a rise of a few inches recently. There is a large amount of produce on the river awaiting shipment.—*Galena Gaz. Oct. 8.*

Wisconsin State Fair.

Kenosha, Oct. 11.

Friend Hosmer:—From causes beyond my control I was unable to continue my hasty sketches of the progress and prospects of Wisconsin, until to-date a date, that from want of connection, I feared all interest would be dispelled, even if they had any attractions in their connected position. I shall not now attempt to rescue the subject except incidentally by giving you a slight description of our State Fair just held the past week at Milwaukee, at which I spent a day very agreeably.

The number and quality of the various articles on exhibition and the crowd of good looking, smiling need, farmers and their families, was a sufficient indication of the capacity of the State to take no mean rank in the family of its oldest sisters, as well as of the intelligence an prosperity of its citizens. None who visited the grounds but was most agreeably disappointed with the extent, variety and superior quality of articles brought together for so laudable and honorable a competition.

The entries of stock was very large. I have a doubt if you Buckeyes excelled us in thoroughbred, either in number or quality. As the horses and cattle were exhibited, and of them not a few, as I have ever had the pleasure of looking at, and also some very fine specimens of several varieties of thorough bred sheep. The display of cereals was also very large. Wheat equal to the best Genesee, and oats and barley, of a quality to do ones eyes good to look at. Indian corn, flax and flax seed, beans, potatoes and turnips, &c., in all most endless variety, and of a quality not good as they make them. I have not time, nor would it be interesting to go into a detail of all the various articles on view; suffice it to say, all was good and such to give a high degree of encouragement to our agricultural population.

The exhibition of manufactures was meagre but what there was, sufficed to show there was no want of the genius and skill to successfully bring this branch of internal wealth to a high degree of perfection, under a proper system of protection and encouragement.

The entire exhibition was highly creditable to the productiveness of the soil and the skill, enterprise and industry of the Badger State and the Badgers, who are about to make another exhibition that will be equally creditable and of equal importance to their future prosperity and welfare. In November they will give their vote to Winfield Scott for President.

You may safely count on the Badgers for five votes in the electoral college that is to declare the old Hero called to fill the highest office known to civilized humanity.

Ever truly yours, BADGER.

THE LATE ELECTION.

A propensity to crow with stentorian lungs over the achievement of the most insignificant victory, and to "bluff" at all times and under all circumstances, distinguishes the democratic party. We are not, therefore, surprised to behold the liberal display of cannons, flags, roosters and bold faced type, which ornaments the opposition journals upon the occasion of the late "democratic triumph," as those prints are pleased to designate the result of the State elections in Pennsylvania, Indiana and Ohio. If the Locofoco party can glean any, the slightest, hope for their cause and for their candidates from these elections, we should certainly be unwilling to deprive them of the fallacious and short-lived satisfaction to be derived therefrom; but we do not imagine that the sensible portion of those who in any serious idea that the prospects of Franklin Pierce are improved in any degree by the results in the Western States. The majorities announced with so loud a flourish of trumpets, are daily dwindling down to mere trifles.

In Ohio the whigs have made large gains upon the majority of Gov. Wood. Returns from forty three counties, including the Reserve, show a whig gain of eight thousand five hundred and forty eight. The vote is a light one, and a determined effort and a full vote in November, will give the electoral vote of Ohio for Scott by 10,000 majority. In the Cuyahoga district, where a vast majority was at first reported for the democratic candidate, the result cuts it down to a meagre figure, and proves a whig gain of several thousand votes. The strength of Scott lays in his personal popularity with men of all parties, and will be sufficient to sweep everything before it. This the democrats of the State know full well, and no person who witnessed or read of the triumphant progress of Scott in his late western tour, can for a moment doubt that the 23 votes of Ohio will be given to the old hero.

In Pennsylvania, the circumstances which influenced the result are ably set forth in an article published in the Philadelphia *North American*.—That paper states that the whigs, as usual, were unwilling to run out to the polls. It is a well known fact that the members of that party are ever averse to exert themselves unless some matters of more than ordinary importance are at stake. The *American* says:

We have not the slightest doubt that the twenty seven electoral votes of Pennsylvania will be given to General Scott. Tens of thousands of Whigs, who would not lose the time or incur the trouble necessary to reach the polls, when merely local, and, as they unwisely considered them, unimportant, issues were at stake, will mingle actively in the Presidential contest; and hundreds upon hundreds of Democrats, who have avowed their own party, will cast their ballots for the gallant old veteran whose name shines now so conspicuously in his own country's history, and whose fame will hereafter be among its priceless inheritances. There is scarcely a man who cannot find within the sphere of his own observation one or more Democrats who have avowed their determination to go for Scott; and there are no doubt larger numbers that intend to go for him, who do not choose openly to declare their purposes.

The turn out in this State in November will be greater than any we have heretofore had. The causes which on Tuesday, led to indifference, will no longer exist, and the Whigs will be found marching in solid and unbroken column to the achievement of a brilliant victory. In regard to their illustrious leader there is no dissension in their ranks; all honor and reverence and love him, and all are burning with impatience to manifest toward him substantial tokens of gratitude and esteem.

At this moment while returns are coming to us from different points of the State, showing that our friends have been careless as to the result of Tuesday's election, assurances reach us from all quarters that in the great fight which is approaching we may look for an earnestness, a spirit, an enthusiasm which have not been paralleled. Here in our own vicinity, the friends of Scott were never more confident of carrying this State than they are now; and in their temporary defeat they find motives to such exertions as cannot fail to command success.—*Buffalo Express.*

THE DOOM-LADEN BANNER.—The old Scandinavian pirates had a celebrated banner, called the Raven Standard, concerning which there was a superstition that whoever bore it into battle, however strong or faint he might be, was sure to be slain; and hence the Skalds sung of it as "The Doom-laden Banner." Our Democratic friends at Tammany Hall are even more unfortunate than the Pirates of the North; not only is the standard bearer sure to fall, but the banner itself is made the sport of the elements, a very plaything of remorseless Destiny. On their first attempt to "fling their banner to the breeze," the Polk and Dallas pole—unable to sustain so heavy an incubus—broke down, and the new banner was dragged in the mud, and almost ruined. Subsequently, a storm tore it to shreds, and for a time the party were obliged to send under bare poles. They got up a new one, which was scarcely unrolled before old Boreas, or some other storm-king, split it from top to bottom, and made it a wreck of ominous import. With sad forebodings the party for the third time hauled in the fragments of the "doom-laden banner," and concluded that henceforth they would run no more tempt adverse fate, or put their unfortunate candidates in the way of such disastrous omens. But the great torch-light procession (which was to have come off a week ago) demanded another attempt; it would never do for Old Tammany to strike her colors on such an occasion, and so a fourth banner was got up. The elements, however, did not seem satisfied with tearing up their banners; even the redoubtable Empire club was put to flight, or rather kept at home by a furious storm—the only one in many weeks—which occurred at the moment that they hoped to have astonished the world with an interminable procession of boys bearing torches. The procession was postponed, and the banner safely housed; but in some evil hour, tempted by the mocking inquiries of the Whigs, and trusting to the magnificently fair weather, the Tammany folks ventured once more to hang their banner on the outer wall. The canvas was thrust forth in night, and on Friday morning, (ominous day) the people beheld it like Capt. KIDD, hanging in chains, with a stone at each foot. No sooner had the sun got a glimpse of it, as he rose over the East Hall, than a cloud no bigger than a man's hand arose in the direction of Ohio, and in less time than one would require to say utter posters, a tempest that might have shamed Euroclydon fell upon the city, the first result of which was the utter destruction of the latest PIERCE & KING banner, sending fear and trembling for the fourth time into the camp of the regular democracy.—*N. Y. Tribune.*

Later from Havana.

New York, Oct. 19.

The *General Clay*, Lt. Porter commanding, arrived this afternoon from New Orleans via Havana in 4 days and 18 hours.

The G. C. entered the harbor of Havana at the first break of day, and it was supposed by those on board that it was owing to their not being seen until inside of the harbor that they were not molested. At sunrise the Captain of the port came along side and asked for the obnoxious Mr. SMITH, whom he was informed, was on board.

He then told Capt. P. that as the ship was in port no steps would be taken, but no communication with the shore would be allowed.

Capt. Porter said he declined to present his protest, which the Captain of the port politely offered—(Here the Lake line gave out.)

THE GREAT INDIA RUBBER CASE—GOODYEAR VS. DAY.—In the U. S. Circuit Court this afternoon a motion was made on behalf of Goodyear to attach H. D. Day and John Helm for contempt in violating the injunction of the Court, lately granted against Day, by continuing to manufacture India Rubber goods. The parties are in Court. Day denies that he has violated the injunction, and says he has sold out for $225,000, his manufactory to Roger & Wetmore of New York, by whom the business is carried on. The complaint alleges that the sale was fraudulent, which Day denies.

SALE OF VALUABLE CATTLE.—The entire herd of cattle owned by Geo. Vail, of this city, comprising 61 head of short-horned cattle, was sold to-day for an aggregate of $10,000. For the cow Yarnless- $670 was paid, and $570 for the imported bull Earl of Derby.

Foreign Items.

Mr. Beale of London has obtained a verdict against Catharine Hayes for $3,000. The suit arose out of breach of promise to Miss Hayes' agent. The case was not defended.

The eruption of Mount Etna. A private letter of the 15th ult. announces that the lava of Etna had taken another direction and is fast marching on Mio, the inhabitants of which, to save the crops, are busily engaged in cutting down their chestnut trees, and, of course, emptying their houses. A coasting vessel the Montibello, when lying at anchor near Catania, has been covered with sal ammoniac, the same from the mountains. A specimen has been sent to Malta, and has been pronounced of the very best quality. The mountain has sent it forth in vast clouds.

The Locofocos and Native Coalition in Pennsylvania.

If doubt existed in regard to the coalition formed between the proscriptive Native American party, and the Locofocos, the result of the Pennsylvania election must remove it. George W. Woodward, the candidate for Supreme Judge was the most bitter Native American in the State—just exactly the man to glorify the New Hampshire Test. In consideration of his nomination by the Locofocos the Natives have generously supported the Locofoco tickets, and will be expected to support Pierce in November. This is all natural, and just as we expected. Pierce comes from a State which proscribed the very ideas whereon Jefferson founded Democracy. From the first it was expected they would oppose Gen. Scott. All the Whigs ask is fair play. Let the fact be understood by Adopted Citizens, that while the Locofocos are coaxing them to support Pierce, the most unblushing coalition has been formed with Nativism in Pennsylvania—that in consideration of the 20,000 Native vote in and about Philadelphia, a Native has been elevated to the Supreme Judgeship.

The Railroad.

On Wednesday last, the 29th ult., the citizens of Dubuque decided the question of taking stock in the Southern Wisconsin Railroad. The question was well understood, as may be learned from the fact that 426 "Railroad," and only 9 "No Railroad" votes were cast. Private individuals being pledged for $50,000, and the city for $100,000, the work will go on with all possible dispatch. When completed this road will place Dubuque in immediate connection with Milwaukee, Racine and Chicago, via Janesville.

The effect of the vote last week has already shown itself. Holders of real estate open themselves amazingly, and everything seems right side up.—The ice has been broken, the work begun, and that is half the battle. Probably the future of no city in the West promises better than ours. All that has been wanting was the right use of the means nature herself had provided. Rivals have long known this and chuckled over it. Well, be it the bravest who triumphs at last.—*Dubuque Tribune.*

139 EAST WATER ST.,

PROPRIETORS OF THE

Eastern Wholesale House,

Beg leave to inform their old friends and customers, and Merchants generally throughout the State, that they are now receiving their

Spring Stock of Goods.

And will, by the 15th of May, have in store the most extensive and complete stock of

DRY GOODS, READY-MADE CLOTHING, AND BOOTS AND SHOES,

West of New York. Our stocks of DRY GOODS, BOOTS and SHOES will at all times be complete.

We would also say, that being desirous of meeting the wants of the merchants in this State, and owing to the great demand for READY-MADE CLOTHING, we have made arrangements with the manufacturers, east, which will enable us to furnish the wholesale trade of this State with all the latest and most fashionable styles of CLOTHING at lower rates than it has heretofore been sold in the West.

All of the above goods are purchased from the *Manufacturers, Importers* and *Auction Houses* direct, which enables us to sell at prices entirely beyond the competition of any house in the West, and as low as jobbers in New York and Boston.

FOR SALE.

FOR sale adjoining the Village Plat of Waupun, one of the most splendid farms in the whole Western country, containing five hundred acres. Said farm is capable of producing annually the thousand bushels of grain, and for keeping summer and winter 150 head of horses and cattle. The Village of Waupun contains about 800 inhabitants, has two large Hotels and nine stores. There is a railroad now building within a mile of said farm, which will connect with Boston and New York. The State Prison is built here. Waupun is a beautiful and thriving village, and as healthy as any portion of New-England. Said farm is so situated that it can be equally well managed in one farm or a number of smaller ones. Perhaps it would not be too much to say that so fine a farm, with such a desirable location, having all the advantages of general society, is very seldom offered for sale. Terms liberal. For particulars please inquire by mail or otherwise, of

WOODWORTH PLANING MACHINES,

with the Variable and Vertical Cutters, for manufacturing double and single sash, doors, &c., all of which are offered as regards strength and perfect cut. Within three days we will be able to supply Planing Machines with the "Woodworth Express" and "Whitaker's single face" wheels. From the material used in, and the expense of fitting up, these gentlemen will get something more than ordinary Wheels. And it is confidently presented by those who are conversant most valuable in such matters, that they will possess a greater amount of strength than any cast or combination wheel made. They are the invention of Geo. W. Whitaker, Jr., Esq., (whose experience in all matters connected with railroads is sufficiently known) and intended to obviate the inherent defects of cast wheels. Those who use them will consider them perfectly safe in all we they, at the highest rate of speed.

Spherical Di-infecting Fluid,

FOR purifying the air of steaming and sick-rooms, cabins and holds of ships, particularly for passenger ships, at sea or in port, prisons, jails, crowded rooms in general, from offensive, close and infectious air of all kinds, including the fetid spheres of cholera-ships, typhus, yellow, bilious, scarlet and other fevers of our own or Southern and Western climates, in cities and towns, on land and water. Also, for disinfecting the bedding, clothes, and trunks of persons who are in or have been in the atmosphere of infectious diseases.

This fluid is healthy to breathe or take internally, and instead of filling the room with a choking, irrespirable air, as the chloride of lime and other chemical preparations in use do, it makes the air sweet and salubrious, and at the same time strengthens the respiration and enlivens the spirits of those present, by its balmy, fragrant and tonic influence.

The Following Certificate

selected from a number, can be seen at the office of the agents:

Aston House, New-York, 27th April, 1850

We have used H. H. Raymond's Disinfecting Fluid, and recommend it to all as an excellent article, the best we have ever used.

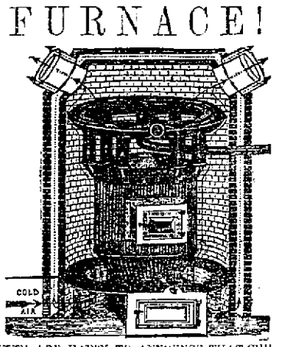
CHILSON'S PATENT

World's Fair Prize Medal

FURNACE!



WE ARE HAPPY TO ANNOUNCE THAT CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and assented to, cleared by high and reliable authority, to be the

BEST FURNACE IN THE WORLD.

Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating DWELLING, CHURCHES, ACADEMIES, SCHOOL HOUSES, COURT and STATE HOUSES, HOSPITALS, STORES &c., in nearly all the cities and towns in the United states, but is meeting with equal favor in the CANADAS, ENGLAND, RUSSIA, and other Foreign Countries. It has been awarded at the recent Fairs in the country, gold and silver medals, first premiums, and lastly the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best—(See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty-five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common coal hot air furnaces seven years since, under the settled conviction that red hot iron stoves burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, same to be inhaled by human beings, besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air and the annoyance and expense we have all had to endure. He now has the satisfaction of knowing that his efforts to secure a *healthful, economical* and *durable* apparatus, for thoroughly warming and ventilating buildings, has been entirely successful. They possess the following advantages: purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals or wood, all equally well—flues easily cleaned, but never clog—durability, and safety against fire in the city they are located; may be set in low cellars—and the use of cases of buildings, and thereby save expense. For a less limit perfect safety against setting buildings on fire in which they are located; may be set in low cellars—and the use of cases of buildings, and thereby save expense. For a less limit perfect safety against setting buildings on fire in which they are located; may be set in low cellars—and the use of cases of buildings, and thereby save expense. superior PORTABLE FURNACES.—Dr. Clark's improved Boston School stove.

SAUGATUCK IRON WORKS,

WESTPORT, CONN.

OFFICE NO. 5, NASSAU STREET, NEW-YORK.

WE DESIRE TO CALL ATTENTION TO THE following articles which we are manufacturing for Railroad companies, namely:—Car wheels and axles, bars and pedestals, wheel presses, locomotive drivers and cylinders, screw cutters, drilling machines, switch stands, levers and targets. Also, Hay and Cotton Presses, Screw Jacks, and all castings connected with Railroad superstructure.

WHEELS.—Nearly two years since we commenced business, with the view of making wheels for cars then in formed by gentlemen whose intelligence and experience entitled their opinions to great weight, that the wheel was imperfect, and that we could not attempt its improvement. With a very desire to succeed, we commenced an examination of the various patterns in use, to ascertain and secure the best. We soon became convinced that a majority of the patterns would prove satisfactory, if the front of which they were made was sufficiently strong and properly chilled. Since then, we have made no unessential alterations, and can confidently recommend our wheels to the notice of railroad companies as possessing the requisite strength and durability, combined with the most economical principle in their construction, to be demonstrated the on the principles of the art.

Railroad companies or others who will favor this advertisement three times with their name, and forward us a paper containing the same, will be paid a liberal compensation for purchases of car wheels the amount of their bill for the first settlement. oct4

NEW FALL AND WINTER GOODS.

E. M. SHOYER & CO.

HAVING ENLARGED their former premises by the addition of the upper rooms now occupied by Conress & Root, would call the attention of their customers and the public in this and country, to their extensive assortment of

READY MADE CLOTHING

and complete assortment of

GENTLEMEN'S FURNISHING GOODS,

They are confident in view of their very superior and unsurpassed facilities for the purchase of goods in the Eastern markets from cash auctions, importers and manufacturers, in all cases from first hands, one of the principal causes of their success in selling and satisfying the wants of customers in Philadelphia, that they are not only able, and do buy their goods from 20 to 25 per cent cheaper than most houses in the city who buy on credit, and of jobbers, but they are able and are determined to sell that much lower. They deem it superfluous to attempt, as it is impossible to enumerate the articles that compose their stock, which in every item is unrivalled by any similar establishment west of the Atlantic cities.

To their friends and customers, and those who know them, it is needless to say anything, but to strangers who are in want of articles comprising their stock, they would call on and examine for themselves, feeling confident they are able to offer; we will give you polite and respectful attention, with better bargains than you are able to get elsewhere. The most perfect satisfaction is guaranteed in all cases to those who deal with us.

HAY PRESS.

THE IMPROVED PATENT LEVER RAILWAY PRESS for Hay Alligators now in use for pressing Hay, Cotton, Hemp, Wool, Hops, Rags, &c. &c., and will be warranted to perform well and to do as the work of any other press; and with the same number of hands, with less than half the draught; a small boy can attend the horse, and the cunning tack of the follower with ease. The time required in running up the follower, is fifteen seconds. A bale of Hay can be pressed in less than one minute, at ordinary all day work; even as short bales can be pressed and bound per hour. Bales of Hay can be pressed, weighing over 300 lbs., measuring two feet in length and four feet long. Bales of Cotton can be made compact enough without compressing.

The construction of this press is such that it does not require a building expressly for it, as it may be placed in any barn or shed, and the horse may move in any direction, or at any distance from it; and when the bale is ready for delivery, it is discharged quickly, and the follower gradually recedes as the hay is placed in the box.

The construction is so simple that any man can make a Press, or keep it in order.

The pressure on a horse, in running up a bale, is fifty feet, while in a screw press, the travel is one mile and a-half, in running the screw in and down. We have one now in use, to show the operation to Western Men. Wire and two others in process of construction.

To cause a failure of the key even as has occurred in all of the Presses on rail Alligators, the present search cannot fail to create a most profitable business to any person in Wisconsin or Illinois, who may take hold of the right to sell with energy. The hay now shipped during the present fall, and three months of the spring navigation before cutting, will be enormous.

REPORT OF THE PREMIUM COMMITTEE OF THE AGRICULTURAL SOCIETY OF NEW-YORK.

"The Lever Railway Hay and Cotton Press, is a machine combining great power, convenience of operation, and construction on the philosophical principles, and is a great deliberation to the new countries, and all who are still employed in the interior of the older countries, and to planters and wool growers; and we, the undersigned, your committee, do therefore think they do not overpraise what they say of it, in the opinion, the perfection of machinery for that purpose. The Committee therefore award a premium of $25.00."

The Press, with the right to use it, can be purchased at less than one-half the cost of any other Press now in use. For rights for a single Press, or Towns, Counties and States, application should be made to the subscriber.

THE GREFFENBERG CO.'S
Health Almanac
1853.

TO counteract, in some degree, the false doctrines and superstitious fables which have so long enveloped the science of Medicine in mystery, and to present a few plain facts pertaining to HEALTH, is the object of this work. It contains also valuable Essays on medical subjects by *nine* eminent Physicians, whose names are attached to the articles they have written. This publication is, beyond doubt, the most valuable FREE GIFT to the sick ever presented to the American people. It gives the best and most reliable advice, free of all cost as the water of which it is the work of a few months.
